Welcome!

All of us at Gallatin—faculty, administrators, staff, and students—are happy you chose to study here. Gallatin students are known as independent and innovative individuals. We are sure you will fit right in!

This Academic Resource Guide is designed to help you make an easy transition into Gallatin. Regardless of whether you are a first-year student entering from high school, a transfer student from another NYU school, or a transfer student from another college or university, it is important that you know and understand Gallatin’s intellectual values, academic offerings, and administrative support structures.

We recommend that you keep this guide and refer to it regularly during your time at Gallatin. It will help you understand how you can best use Gallatin’s unique curriculum and flexible administrative policies to create your own interdisciplinary and individualized academic concentration. It will also help you prepare for discussions you will have with your academic adviser. As you will learn, your adviser will play a key role in helping you shape your Gallatin education. Finally, the guide describes some of NYU’s many resources; if you are new to NYU, spend a few hours familiarizing yourself with them.

We hope you find the Academic Resource Guide useful, and we look forward to working with you to help you achieve your academic goals!

Patrick McCreery
Associate Dean of Students
Developing Your Plan of Study

At Gallatin, we use the term “Plan of Study” in two different ways. Broadly, it refers to your “concentration”—the array of courses, independent studies, internships, and other learning experiences that you and your adviser shape into your own interdisciplinary and individualized program. Second, and more specifically, the Plan of Study is the registration form that you will complete every semester.

Gallatin allows its students a great deal of autonomy in developing their concentrations. With their advisers’ help, Gallatin students design individualized curricula that take into account their unique backgrounds, interests, and goals. These individualized programs typically combine Gallatin courses with classes in other NYU schools as well as independent studies and internships. As you plan your interdisciplinary program each semester, your adviser will assist you in making informed, well-rounded academic choices while supporting you as you take responsibility for and charge of your own education.

Each semester, you will be asked to articulate your educational goals and plans for realizing them by filling out a Plan of Study form, listing your proposed courses for the semester, and writing a thoughtful description of your short- and long-term academic goals, as well as assessing your progress toward degree completion.

Note: Along the way, familiarize yourself with the NYU lingo. For example, while some universities calculate a student’s course load in “units” or “points,” NYU does so in “units.” Most NYU courses are 4 units each, and the average load is four courses (16 units) per semester.

The Role of the Adviser

You are responsible for ensuring that you fulfill all of your Gallatin degree requirements. However, strong academic advising will be a key component of your Gallatin education. Two advisers in particular—your faculty adviser and your class adviser—will help you construct your program of individualized study.

Your faculty adviser will help you articulate, develop, and refine a concentration each semester. He or she may supervise your independent studies and internships. In your junior and senior years, your faculty adviser will help you conceptualize and plan for your Colloquium—the student-designed oral exam that serves as the capstone requirement for every Gallatin undergraduate student.

Whether you are a first-year or transfer student, you will be assigned a faculty adviser to help mentor you through the Gallatin program. Should your area of interest change, you will be able to switch advisers in a future semester.

Your class adviser supports both you and your faculty adviser, answering any administrative questions you may have and helping you navigate NYU’s systems. If your faculty adviser is temporarily unavailable, your class adviser will help answer your substantive academic questions. In short, both the faculty and class advisers work to ensure that your program not only has depth, breadth, and coherence but also is consistent with your educational and career goals.

Note: Your Gallatin advisers are academic advisers. If you have questions about nonacademic issues such as tuition, financial aid, or housing, you should contact the appropriate NYU office. (See page 31 for a list of these.) If you still have trouble finding answers to these nonacademic questions, you should contact Gallatin’s Office of Student Services at (212) 998-7378 or studentservices.gallatin@nyu.edu.

The Student’s Responsibilities

All Gallatin students will work closely with faculty and advisers as they explore their academic interests and develop interdisciplinary concentrations. It is helpful to keep in mind the following expectations to keep you on track during your time here:

Learn your degree requirements and understand Gallatin policies. As a Gallatin student, your goal is to develop your interests and build a concentration while simultaneously fulfilling Gallatin’s degree requirements. It is your responsibility to keep track of your degree progress and to discuss it with your advisers, particularly if you have any questions or concerns. Make sure to be aware of policies and deadlines: these are posted on the Gallatin website. You will receive regular updates from your class adviser and from Gallatin’s Office of Student Services, but ultimately YOU must stay on top of the academic calendar.

Communicate with your advisers. Working and meeting with your primary faculty adviser should be a priority. It is your responsibility to email your faculty adviser to schedule advising meetings well in advance of important deadlines, particularly registration. When your faculty adviser or your class adviser reaches out to you, respond
in a timely fashion. Plan ahead for meetings: gather your thoughts, questions, relevant course information, and other materials related to the subjects you intend to discuss. It might help to write down your questions or topics for discussion in order to maximize the time you have to speak.

**Know your syllabi, and communicate with instructors.**
On the first day of class, you should receive a syllabus for the course. Consider this document a kind of contract: it will set out the course goals and expectations, including grading criteria, and provide a schedule of readings and assignments. It is your responsibility to be aware of all due dates and your responsibility to communicate with your instructor—or your class adviser, who can, in turn, help you communicate with faculty—if you encounter difficulties meeting the class expectations.

**Go to class, and be a good classroom citizen.**
As a Gallatin student, you join a community of scholars. It is your responsibility to be a good member of this community. In part, this means coming to class on time and prepared to engage in a productive discussion of challenging material. It also means being respectful of your classmates’ beliefs and opinions. If you need to miss a class, email your instructor immediately to explain why. Understand that not all absences can be excused.

**Check your NYU email.** You should check your NYU email account frequently: this is where your faculty adviser, class adviser, instructors, and University offices will direct important communication. Please respond to emails from your advisers in a timely manner: your advisers are here to support and help you, but they can only do so when you communicate with them.

---

**Developing Your Plan of Study**

**NYU Systems**

**Brightspace:** The University’s official learning management system (LMS) allows students to access course materials, submit assignments, track their progress, and more. (Note: Not all courses use Brightspace.)

**NYU Home:** Sign in to NYU’s main web portal using your NetID and password to access a variety of web-based academic and University life services (including your NYU email and your NYU calendar). All of the services listed below can be accessed through your NYU Home page.

**Albert:** Albert is NYU’s student information and registration system, which you will use to register for classes, monitor your degree progress, view grades, and check your financial aid status. More information about Albert and registration can be found on page 16 of this guide.

**NYU Connect:** A platform that connects students to the support and services they need, NYU Connect allows students to discover and access key University resources, receive alerts and notifications, and communicate with faculty and advisers.

**NYU Engage:** This platform allows you to create, discover, and get involved with the larger NYU community through clubs and organizations. You will use NYU Engage to join clubs and find events.

**First-Year Students: The First Semester**

We do not expect you to be able to explain your concentration in your first semester. Indeed, you should use your entire first year to explore some of the many academic opportunities that NYU has to offer. Keep an open mind as you talk with faculty, advisers, and other Gallatin students and as you peruse NYU’s course offerings. This process may help you not only discover a subject you want to pursue in greater depth but also new approaches to established interests.

**First-Year Interdisciplinary Seminar:** All Gallatin first-year students must take a First-Year Interdisciplinary Seminar in the Fall semester. These courses are intended to introduce students to the goals, methods, and philosophy of university education and to the interdisciplinary approach of Gallatin.

**First-Year Writing Seminar:** All Gallatin first-year students must take a First-Year Writing Seminar in the Fall semester (and a First-Year Research Seminar in the Spring). Note: A score of 4 or higher on the English Literature Advanced Placement (AP) exam potentially gives you 4 units towards the 128 units needed to graduate, but does not
Developing Your Plan of Study

exempt you from taking Gallatin’s writing seminars. Descriptions of all First-Year courses in the Fall semester can be found on our website at www.gallatin.nyu.edu/academics/courses.html (filter by year, semester, and course type).

Note: You are not permitted to enroll in internships, independent studies, or tutorials in your first semester. You will have plenty of time for these nonclassroom projects later. First-year students are strongly discouraged from registering for regular Gallatin interdisciplinary seminars (IDSEM-UG) in their first semester.

In addition to taking your required first-year courses, devote some of your first year to fulfilling Gallatin’s liberal arts requirements, which include:

- **8 units in the Humanities**
  such as art history, classics, history, languages, literature, philosophy, music history, and religious studies

- **8 units in the Social Sciences**
  such as anthropology, economics, politics, psychology, sociology, and gender studies

- **4 units in a Science or Math**
  such as biology, chemistry, environmental science, physics, computer science, and mathematics

These requirements help ensure that your concentration is truly interdisciplinary, making use of multiple academic methodologies.

While you are not expected to fulfill the historical, cultural and critical race studies requirements during your first semester or even in your first year at Gallatin, you should keep these requirements in mind as you develop your concentration:

- **4 units in critical race studies**
- **4 units in early modern studies**
- **4 units in global cultures**
- **4 units in premodern studies**

Students may satisfy these requirements with select Gallatin interdisciplinary seminars, as well as courses in other NYU schools. For more information about these requirements, see: gallatin.nyu.edu/academics/undergraduate/requirements.html.

**Orientation:** First-year students have a comprehensive Orientation during Welcome Days, which take place just before Fall-semester classes begin. Some activities will be led by Orientation Leaders, who are continuing students trained to help you connect with communities and resources at Gallatin and NYU. Welcome Days also include Convocation, a signature scholarly event at Gallatin that marks the beginning of each academic year.

**Transfer Students: The First Semester**
As a new transfer student, you will be joining Gallatin at a crucial stage in your college career. You will be able to sample many of the intellectual opportunities that NYU and New York have to offer, but you should also strive to focus your education in creative and challenging ways. The ideal semester will be different for every Gallatin student, but here are a few general pointers on how to construct your program of study:

**Work closely with your advisers.** As a transfer student just entering Gallatin, you will begin your advising relationship with one of the School’s transfer advisers, who will guide you in choosing courses that fulfill your academic goals and interests. When the semester begins, you will meet with your primary faculty adviser and with a class adviser for your cohort. Maintain good communication, as they can direct you to a host of useful resources.

**Learn about NYU.** In order for you to locate courses that speak to your interests, you will need to understand NYU’s academic structures. Students interested in literature, for example, should be aware that a number of different departments at NYU offer courses in writing and literature: English, Comparative Literature, Dramatic Literature, all of the foreign language and area studies departments, Social and Cultural Analysis, and Gallatin itself. (See pages 10 through 13 of this guide for a complete list of departments where Gallatin students take courses.)

**Choose courses that require different kinds of learning.** Too much of a good thing can be too much: Taking four courses that demand a lot of reading and writing can make for a term that seems repetitive and exhausting. Think about taking a course in art, music, or math—or whatever might stretch your mind and change your academic routine.
Begin thinking about your Intellectual Autobiography and Plan for Concentration (IAPC):
Before completing your 64th unit, you will need to write and obtain your faculty adviser’s approval on a 2- to 3-page essay in which you review your intellectual development and identify how you will complete your interdisciplinary concentration. Many transfer students must complete the IAPC before the end of their first semester in Gallatin, so it is important to think about this requirement early. Gallatin’s Office of Academic Advising offers workshops and other assistance throughout the year to help you.

Orientation: Transfer students attend an Orientation the week before classes begin. As part of Orientation, continuing students help explain the many communities and resources that exist at Gallatin and at NYU.

Transfer Research Seminar: New transfer students who have not completed two semesters of expository writing are expected to complete a Transfer Student Research Seminar in their first semester at Gallatin. Descriptions of these courses can be found at: gallatin.nyu.edu/academics/courses.html (filter by year, semester, and course type). If you need to take a research seminar, please be in touch with your transfer adviser to obtain a permission number.

International Students
As an international student, you bring a unique and valuable perspective to the school. But you may also encounter styles of teaching and learning that are unfamiliar to you. Do not be bashful about asking your instructors, faculty adviser, and class adviser to explain elements of the Gallatin educational model that you find perplexing.

Here are some tips and resources to help you acclimate to your life as a Gallatin student:

Understand that Gallatin is different, even by American standards: Gallatin’s seminar style of instruction emphasizes spirited classroom discussions and written or creative projects instead of examinations. Most Gallatin faculty permit, and often encourage, students to call them by their first names. These elements of the Gallatin education are not always replicated across the University. Some non-Gallatin courses are lectures; in some other NYU schools, you will be expected to address the instructor as “Professor _____.” If you ever are in doubt, ask!

Office of Global Services (OGS):
OGS is NYU’s central resource for all immigration and visa questions, whether you are a newly admitted or current student. More information about this office and its services can be found at: www.nyu.edu/students/student-information-and-resources/student-visa-and-immigration/current-students. You may also call the office at (212) 998-4720.

Full-Time Enrollment Requirement:
If you are an F-1 or J-1 international student, you must register full-time every semester or receive approval from OGS to register part-time. Full-time status requires enrollment in a minimum of 12 units of coursework per term. Note: F-1 regulations state that only one online class may count toward full-time enrollment in any Fall or Spring semester. For more information on this topic and the policies governing international students, please visit this page: www.nyu.edu/students/student-information-and-resources/student-visa-and-immigration/current-students/visa-and-academic-changes/register-part-time.html.

NYU International Student Center, Kimmel Center, 7th floor: The International Student Center is a hub for events and programs aimed at fostering connections among all students, and especially those who are international. Students are invited to study, relax, and socialize in the lounge space. For more information, please visit the center’s website: www.nyu.edu/students/communities-and-groups/international-students/InternationalStudentCenter.html.

Optional Practical Training (OPT):
OPT is temporary employment that is directly related to a student’s major field of study. Students can get a maximum of 12 months of OPT for each degree level completed. Specific information can be found on the University’s Optional Practical Training webpage: www.nyu.edu/students/student-information-and-resources/student-visa-and-immigration/current-students/employment-and-tax/optional-practical-training.html.

Note: The Gallatin program is not eligible for the STEM OPT. If you are an international student who graduates from Gallatin, the maximum OPT you will be approved for is 12 months, regardless of the specific fields of study you engaged in your concentration.
Developing Your Plan of Study

**Military Service:** If you are an international student whose home country requires that you participate in military service, you may be granted an official leave of absence from NYU so that you can fulfill that responsibility. Students needing a leave of absence for military service should consult:

Gallatin’s Office of Student Affairs ([studentaffairs@gallatin@nyu.edu](mailto:studentaffairs@gallatin@nyu.edu), 1 Washington Place, 5th floor, 212-998-7380) for instructions and procedures regarding the leave and return from leave.

NYU’s Office of Global Services (212-998-4720) to review the requirements pertaining to your visa status while on leave.

**Planning Your Class Schedule**

The individualized nature of a Gallatin education presents great opportunities as well as challenges. You may choose from hundreds of courses across NYU, but how do you shape your selections into a coherent whole? When is it time to expand your intellectual horizons and when is it time to focus? What happens if your interests change? Faculty, class advisers, and your professors will help you answer these questions, but here are some points you should keep in mind as you plan for your first semester:

**Learning Is A Process:** You want to acquire knowledge, but you also want to acquire academic tools. Take courses that will add to your store of knowledge, challenge your ways of thinking, and enhance your academic skills. Different courses will do this in different ways, but beware of skipping from one subject to another, as your concentration should not sacrifice depth and rigor for breadth. And, finally, be mindful of taking courses for which you are not academically prepared. While many departments will make it necessary to complete introductory pre-requisite courses before advancing, you should always assess your readiness for a particular course before registering.

**Acceleration/Deceleration:** Traditionally, colleges and universities structured most bachelor-degree programs with the assumption that students would enroll full-time for eight semesters of coursework and thus be ready to graduate in four years. Increasingly—for personal, financial, and professional reasons—students seek to accelerate or decelerate their programs.

At NYU, students who are interested in graduating early are considered to be “accelerating.” If you are interested in receiving your undergraduate degree in fewer than eight semesters, you should consult with your faculty adviser and your class adviser to discuss your plans, which may include applying for Advanced Placement units, taking additional units during the Fall or Spring semesters, and/or enrolling in courses during Summer and January terms, at NYU or (with approval) elsewhere. For more information, see: gallatin.nyu.edu/academics/advising/accelerated-ba-degree.html. Students may also decelerate if and when necessary by taking a reduced course load or applying for a leave of absence by working with Gallatin’s Office of Student Affairs.

**Unit/Course Load:** Usually, a semester’s program consists of 16 units (four courses of 4 units each). You can take as many as 18 units, but you should be careful about an overload in your first semester. Remember that the amount of studying required to succeed at NYU is likely different from what you did in high school or at another institution. (A good rule of thumb: three hours of study time for every hour in class.) Think of your studies as a full-time job!

On the other hand, remember that the total of 128 units required for the BA degree assumes that you will complete an average of 16 units each semester. If you complete fewer than 16 units, you will need either to complete a heavier-than-normal load in another semester or to take courses in the January or Summer terms. Note: NYU’s flat tuition fee covers 12-18 units for the Fall and Spring semesters; tuition in the January and Summer terms is charged on a per-unit rate. If you receive financial aid, please familiarize yourself with NYU’s policies regarding Satisfactory Academic Progress. For more information, see: www.nyu.edu/about/policies-guidelines-compliance/policies-and-guidelines/eligibility-for-financial-aid.html.

**Modality**

NYU and Gallatin expect all students to be on campus, whether in New York, at a portal campus, or at a study abroad site, and to register for at least some in-person courses and individualized projects each semester.
Finding Appropriate-Level Courses
Regardless of whether you are a first-year student entering Gallatin from high school or a transfer student entering from another NYU School or another university, an academic adviser will help you select classes relevant to your intended academic concentration. But how will you know which courses are right for you? Most academic departments at NYU require that you follow their sequence of courses, starting with introductory lectures and gradually moving to smaller and generally more difficult advanced seminars. Such requirements make sense as students should not enroll in courses for which they are not prepared.

Some departments consider various forms of advanced standing when determining whether it is appropriate for a student to bypass an introductory course.

Preprofessional Courses
“Prelaw” Courses: Many different academic paths can prepare you for law school. In developing their academic concentrations, students interested in the law should keep in mind that the American Bar Association has identified some core skills and values that provide a sound foundation for a legal education, including: analytic and problem-solving skills; critical reading and writing skills; oral communication and listening abilities; general research skills; task organization and management skills; and a dedication to serving others and promoting justice.

“Prehealth” Courses: If you intend to apply to a four-year healthcare professional school, you must complete a sequence of courses. Be advised that many health professional schools (including medical, veterinary, and nursing schools) will not accept AP credit in lieu of courses in the prehealth sequence. In the spring of your sophomore year, you should schedule an appointment with one of the advisers at the Preprofessional Advising Center, which serves all prehealth students. A complete list of careers in healthcare and their undergraduate requirements is available at prehealth.cas.nyu.edu/page/home.

If you are considering the prehealth track, you might also be interested in Gallatin’s dual-degree program with the School of Global Public Health (GPH). For more information, please see page 18.

</tr>
</tbody>
</table>

*These courses are strongly recommended for all students preparing to take the MCAT exam.

*Biology majors should consult with their departmental advisers about taking BIOL-GA 1045 (Protein Biochemistry), as it satisfies a requirement for the biology major, whereas CHEM-UA 881 does not.

‡Biology majors are not required to take Principles of Biology Lab (BIOL-UA 123).

‡Physics majors must take the "majors only" Physics I-II-III (PHYS-UA 91, PHYS-UA 93, PHYS-UA 95) and Labs I-II-III (PHYS-UA 71, PHYS-UA 72, PHYS-UA 73) - not General Physics I and II (PHYS-UA 11-12).

++Major-specific Calculus I equivalents are appropriate substitutes for students whose majors call for such coursework; for instance, an Economics major may consider MATH-UA 211, Math for Economics I, to be equivalent to a semester of Calculus or college-level math.
Advanced Standing

Students who enter Gallatin as first-year students may receive a maximum of 32 units for academic work completed prior to matriculation. Generally, students earn such units by successfully completing Advanced Placement, International Baccalaureate, or Maturity Certificate Examination programs or by earning grades of B or better in college or university courses that are not counted for credit toward their high school diploma. If you have such units, you may be eligible to post them to your NYU transcript at the end of your sophomore year.

**AP Scores:** NYU students may receive credit toward the 128-unit degree requirement for results of 4 or 5 on most AP tests. To learn which tests are accepted and the number of units you may receive, please consult the Advanced Placement chart on page 9 or online at [cas.nyu.edu/academic-programs/bulletin/policies/admission.html#advanced-placement-program](http://cas.nyu.edu/academic-programs/bulletin/policies/admission.html#advanced-placement-program). Note: Most medical schools and graduate health programs require that students complete the entire premed sequence of undergraduate courses even if they have AP scores that would exempt them from some courses. If you are a premed student, you should therefore take General Chemistry I, for example, even if you have units from AP Chemistry. However, this means that you will lose your AP units. If you have questions about this, contact your Gallatin class adviser.

**IB Scores:** NYU students may receive credit toward the 128-unit degree requirement for results of 6 or 7 on many, but not all, International Baccalaureate (IB) higher-level (HL) examinations. To learn which examinations are accepted and the number of units you may receive, please consult the IB chart on page 9. Note: Most medical schools and graduate health programs require that students complete the entire premed sequence of undergraduate courses even if they have IB scores that would exempt them from some courses. If you are a premed student, you should therefore take General Chemistry I, for example, even if you have units from IB Chemistry. However, this means that you will lose your IB units. If you have questions about this, contact your Gallatin class adviser.

**Proper Placement:** Most NYU departments use AP scores to determine if it is appropriate for a student to bypass an introductory course. Note: You do not need to post AP units to your transcript in order to use them for placement. Consult the AP placement chart for course equivalents. If you did not take an AP test but believe it is nonetheless appropriate for you to skip an introductory course (for example, if you grew up in a bilingual household and want to take an advanced course in your second language), contact the department offering the course in question and ask how to proceed.

You may receive college credit toward your degree for AP and IB tests taken prior to the completion of high school. Credit cannot be used to fulfill Gallatin’s core requirements. If you opt to receive college credit for AP and IB tests, you may not take the corresponding equivalent course for credit. If you do, you will lose the AP or IB credit. If you want to continue in the subject area, you should begin with a higher-level course. At the end of your sophomore year, you can have your AP or IB credit applied to your NYU transcript. For more information, contact your class adviser.
## International Baccalaureate Equivalencies

### IB HL Examination | Score | Units | Course Equivalent
--- | --- | --- | ---
Analysis and Approaches | 6 | 8 | MATH-UA 121 (for 4 of the points)
Analysis and Approaches | 7 | 8 | MATH-UA 121 and MATH-UA 122
Applications and Interpretation | 6, 7 | 8 | MATH-UA 121 (for 4 of the points)
Arabic A or B | 6, 7 | 8 | No course equivalent
Biology | 6, 7 | 8 | BIOL-UA 11, 12
Business and Management | - | - | No course equivalent
Chemistry | 6, 7 | 8 | CHEM-UA 125, 126, 127, 128
Chinese A | 6, 7 | 8 | No course equivalent
Chinese B | 6, 7 | 8 | EAST-UA 203, 204
Classical Greek | 6, 7 | 8 | CLASS-UA 9, 10
Computer Science | 6, 7 | 8 | CSCI-UA 101, 102
Dance | - | - | No course equivalent
Design Technology | - | - | No course equivalent
Economics | 6, 7 | 8 | ECON-UA 1, 2
English Literature A or English | 6, 7 | 8 | No course equivalent
Language and Literature A | - | - | No course equivalent
Film | - | - | No course equivalent
French A | 6, 7 | 8 | No course equivalent
French B | 6, 7 | 8 | FREN-UA 11, 12
Geography | - | - | No course equivalent
German A | 6, 7 | 8 | No course equivalent
German B | 6, 7 | 8 | GERM-UA 3, 4
Global Politics | 6, 7 | 8 | No course equivalent
Hebrew A | 6, 7 | 8 | No course equivalent
Hebrew B | 6, 7 | 8 | HBRJD-UA 3, 4
Hindi A or B | 6, 7 | 8 | No course equivalent
History | 6, 7 | 8 | No course equivalent
Indonesian A or B | 6, 7 | 8 | No course equivalent

## Advanced Placement

Below is the AP Course Equivalency Chart, which may change by the time you are ready to apply for credit for AP exams. Consult the Gallatin website, gallatin.nyu.edu/academics/policies/policies1/ap.html, for updated information about AP credit.

### AP Examination | Score | Units | Course Equivalent
--- | --- | --- | ---
Art History | 4 | 4 | No course equivalent
Biology | 4, 5 | 8 | BIOL-UA 11, 12
Calculus AB | 4, 5 | 4 | MATH-UA 121
Calculus BC | 4, 5 | 4 | MATH-UA 121
Chemistry | 5 | 8 | MATH-UA 121, 122
Chinese Lang. & Culture | 4, 5 | 4 | EAST-UA 204
Computer Science A | 4, 5 | 4 | CSCI-UA 101
Computer Science Principles | 4, 5 | 4 | No course equivalent
English Literature | 4, 5 | 4 | No course equivalent
Environmental Science | 4, 5 | 4 | No course equivalent
European History | 4, 5 | 4 | No course equivalent
French Lang. and Culture | 4, 5 | 4 | FREN-UA 30
German Lang. and Culture | 4, 5 | 4 | GERM-UA 4
Human Geography | - | - | No course equivalent
Italian Lang. and Culture | 4, 5 | 4 | ITAL-UA 12
Japanese Lang. and Culture | 4, 5 | 4 | EAST-UA 250
Latin | 4, 5 | 4 | CLASS-UA 6
Macroeconomics | 4, 5 | 4 | ECON-UA 1
Microeconomics | 4, 5 | 4 | ECON-UA 2
Music Theory | 4, 5 | 4 | No course equivalent
Physics 1 | 4, 5 | 4 | No course equivalent
Physics 2 | 4, 5 | 4 | No course equivalent
Physics C—Mech | 4, 5 | 5 or 3 | PHYS-UA 11 or PHYS-UA 91
Physics C—E&M | 4, 5 | 5 or 3 | PHYS-UA 12 or PHYS-UA 93
Politics (U.S.) | 4, 5 | 4 | No course equivalent
Politics (Comparative Government and Politics) | 4, 5 | 4 | No course equivalent
Psychology | 4, 5 | 4 | PSYCH-UA 1
Spanish Language and Culture | 4, 5 | 4 | SPAN-UA 50
Statistics | 4, 5 | 4 | PSYCH-UA 10
Studio Art | - | - | No course equivalent
U.S. History | 4, 5 | 4 | No course equivalent
World History | 4, 5 | 4 | No course equivalent
In constructing your interdisciplinary concentration, you are able to select courses from NYU’s wide array of offerings. Below are the academic departments and programs where Gallatin students take courses. Additionally, this list includes course subject areas (in parentheses), which are how these departments and programs are listed on Albert. Please understand that many courses are limited in terms of availability and that you must always meet prerequisites. For information about a specific course, review the notes located on Albert’s Course Search page or contact the department offering it.

Gallatin School of Individualized Study

Gallatin.nyu.edu

Most Interdisciplinary Seminars fulfill an area of Gallatin’s liberal arts requirement, and some also fulfill the historical and cultural requirements. For a list of Gallatin courses that fulfill these requirements, go to: gallatin.nyu.edu/academics/courses.html.

First-year Gallatin students are not permitted to enroll in individualized projects (internships, independent studies, tutorials, etc.) in their first semester. First-year students are also strongly discouraged from registering for interdisciplinary seminars (IDSEM-UG) in their first semester.

Advanced Writing Courses (WRTNG-UG)
Arts Workshops (ARTS-UG)
First-Year Program (FIRST-UG)
Individualized Projects (INDIV-UG)
Interdisciplinary Seminars (IDSEM-UG)
Practicum (PRACT-UG)
Study Away Seminars (SASEM-UG)
Travel Courses (TRAVL-UG)

College of Arts and Science

www.nyu.edu/cas

Many CAS departments fulfill a specific area of the Gallatin liberal arts requirements. These areas are abbreviated as follows:

• HUM = Humanities
• SCI = Science/Math
• SOC = Social Science

Some CAS departments fulfill a specific area of the Gallatin historical and cultural requirements. These areas are listed after the course subject area and are abbreviated as follows.

• PREMOD = Premodern
• EARLY = Early Modern
• GLOBAL = Global Cultures

For a complete list of CAS courses that fulfill Gallatin requirements, visit the Gallatin webpage: gallatin.nyu.edu/academics/undergraduate/requirements/nyucourses.html.

An asterisk (*) next to the liberal arts area in the chart below indicates that exceptions exist in this department and not all courses satisfy the area listed. Language courses do not fulfill the Humanities requirement; however, topics courses offered by language departments can fulfill the requirement.

**Leonard N. Stern School of Business**

[www.stern.nyu.edu](http://www.stern.nyu.edu)

No more than 31 units in business courses can count toward the Gallatin BA degree. This includes courses in the Stern School, the School of Professional Studies, and those transferred from other colleges and universities.

In the Fall and Spring semesters, Stern opens registration to non-Stern students when registration-by-appointment ends. Some courses might be available to non-Stern students a little later or earlier. For more information, Gallatin students should consult the Stern Undergraduate College website for nonmajors [https://www.stern.nyu.edu](https://www.stern.nyu.edu).

**Robert F. Wagner Graduate School of Public Service**

[www.wagner.nyu.edu](http://www.wagner.nyu.edu)

Students interested in pursuing graduate study at Wagner might be interested in the Gallatin-Wagner BA-Master of Public Administration (MPA) dual degree. Please see page 18 for more information.

UG Public and Nonprofit Mgmt and Policy (UPADM-GP)
Students interested in pursuing graduate study at the School of Global Public Health might be interested in one of the Gallatin-Global Public Health accelerated bachelor’s-master’s tracks. See page 18 for more information.

Undergraduate Global Public Health (UGPH-GU)

---

NYU Undergraduate Schools, Departments, and Programs

**School of Global Public Health**

[www.publichealth.nyu.edu](http://www.publichealth.nyu.edu)

**Students interested in pursuing graduate study at the School of Global Public Health might be interested in one of the Gallatin-Global Public Health accelerated bachelor's-master’s tracks. See page 18 for more information.**

**Undergraduate Global Public Health (UGPH-GU)**

---

**School of Professional Studies**

[www.sps.nyu.edu](http://www.sps.nyu.edu)

While SPS offers courses in many subject areas, Gallatin will allow students to receive credit toward the BA only for those SPS courses offered in applied areas of study, because they generally are not offered at the other schools of NYU. Below are the only SPS subject areas and courses for which Gallatin will grant credit.

- Digital Communications and Media (DGCM1-UC and FILV1-UC)
- Hotel and Tourism Management (TCHT1-UC)
- Real Estate (REAL1-UC and REBS1-UC)
- Sports Management (TCSM1-UC)

**Silver School of Social Work**

NYU Undergraduate Schools, Departments, and Programs

Tandon School of Engineering

www.engineering.nyu.edu

Below are majors/programs in the Tandon School of Engineering where Gallatin students may find appropriate courses. Students interested in pursuing courses in other programs at the Tandon School of Engineering should consult with Gallatin’s Office of Academic Advising (advising.gallatin@nyu.edu, 1 Washington Place, 7th Floor).

Department of Technology, Culture, and Science

Integrated Design and Media (DM-UY, MD-UY)
Science and Technology Studies (STS-UY)
Sustainable Urban Environments (CE-UY, URB-UY, HI-UY)
Culture, Arts, and Media Cluster (CAM-UY, PS-UY, HI-UY)

Department of Technology Management and Innovation

Business and Technology Management (MG-UY)

Tisch School of the Arts

www.tisch.nyu.edu

Tisch’s Open Arts Curriculum makes certain Tisch courses available to all undergraduate students at NYU. In addition, each semester there are select courses in some Tisch programs (listed below) that are open to students pursuing other majors at NYU. Students may consult the Tisch Courses for NYU Non-Majors webpage for more information: tisch.nyu.edu/special-programs/courses-for-non-majors. Other Tisch courses may be open only to Tisch students.

For a complete list of Tisch courses that fulfill Gallatin’s requirements, please visit the Gallatin webpage: www.gallatin.nyu.edu/academics/undergraduate/requirements/nyucourses.html.

Performance Studies (PERF-UT)
Photography and Imaging (PHTI-UT)

NYU Study Away Opportunities

After sophomore year, Gallatin students are eligible to study away for a full semester or a year-long exchange at one of NYU’s partner campuses:

- Abu Dhabi
- Accra
- Berlin
- Buenos Aires
- Florence
- London
- Los Angeles
- Madrid
- Paris
- Prague
- Shanghai
- Sydney
- Tel Aviv
- Washington, DC

These sites offer courses from NYU’s various schools and departments. For more information on the courses offered at a specific site, consult Albert or visit www.nyu.edu/academics/studying-abroad.

If you apply to study at either of NYU’s two portal campuses outside New York, please consult their websites for course information. For the one in Abu Dhabi, see: www.nyu.edu/abu-dhabi; for the one in Shanghai, www.nyu.edu/shanghai.

Finally, Gallatin students may apply for a semester exchange at one of NYU’s partner campuses abroad. For more information and a list of partner campuses, visit: www.nyu.edu/academics/studying-abroad/exchange/internationalexchange.html.

Note: Transfer students must spend their first full semester at the Washington Square campus.
Bachelor of Arts Degree Requirements

| Course Equivalency | 32 units maximum |
| Business Courses | 31 units maximum |
| Private Lessons | 24 units maximum |
| Internships | 24 units maximum |
Degree Requirements Explained

Liberal Arts Requirements
Discuss with your faculty adviser when you should complete the liberal arts requirement, which includes:

- **8 units in the Humanities**
  such as art history, classics, history, languages, literature, philosophy, music history, and religious studies
- **8 units in the Social Sciences**
  such as anthropology, economics, politics, psychology, sociology, and gender studies
- **4 units in a Science or Math**
  such as biology, chemistry, environmental science, physics, computer science, and mathematics

These requirements will help ensure that your concentration is interdisciplinary and thus makes use of methods across the academic disciplines.

Historical and Cultural Requirements
Discuss with your faculty adviser when you should complete the historical and cultural requirements, which includes:

- **4 units in premodern studies**
- **4 units in early modern studies**
- **4 units in global cultures**

Critical Race Studies Requirement, 4 units
Discuss with your faculty adviser when you should complete the critical race studies requirement.

Students may satisfy the liberal arts requirements, the historical and cultural requirements, and the critical race studies requirement by taking select Gallatin interdisciplinary seminars, as well as courses in other NYU schools. For more information about these requirements, see: gallatin.nyu.edu/academics/undergraduate/requirements.html#liberalarts gallatin.nyu.edu/academics/undergraduate/requirements.html#historicalcultural gallatin.nyu.edu/academics/undergraduate/requirements.html#CRS

Intellectual Autobiography and Plan for Concentration; Colloquium; and Rationale and List of Works

Intellectual Autobiography and Plan for Concentration (IAPC): The IAPC is a 2- to 3-page essay that you will write in close consultation with your faculty adviser, usually in the second semester of sophomore year. In it, you will explain the focus of your concentration, identify central questions and methods that will help you structure your academic inquiries, and articulate your plans for your remaining time until graduation.

Colloquium: The Colloquium is a final oral examination, to be completed in the senior year, that will provide you with an opportunity to reflect on your Gallatin concentration and to synthesize various learning experiences into an integrated discussion focused on works and themes that have been central to your undergraduate education. In preparation for the Colloquium, you will write a Rationale and compile a List of Works.

Rationale and List of Works: The Rationale is a short paper (5 to 8 pages) in which you provide a foundation and scaffolding for the conversation you will have at your Colloquium. The Rationale focuses on ideas, questions, and lines of inquiry that have emerged from your construction of your concentration and which you find particularly compelling. In the Rationale, you should discuss these ideas in reflection with several works drawn from all areas of the List of Works. Your discussion should be interdisciplinary (connecting different fields and methods) and historically aware (connecting different times and places).

Your List of Works should include:

- at least seven works produced prior to the mid-1600s;
- at least four works in the Humanities, produced after the mid-1600s;
- at least four works in the Natural and Social Sciences, produced after the mid-1600s;
- and at least five additional works that pertain directly to your concentration.

From all the works on your list, you must identify four works that place your concentration in cultural, political, and geographical contexts, including perspectives from the Global South or from parts of the world outside of the regions in which the concentration is largely focused. Furthermore, you must identify four works that help you think historically about your concentration’s themes and questions. Thinking historically can mean examining the continuities and discontinuities of the object of study, as well as examining the object of study in relation to other significant ideas and phenomena of its historical moment.
The Registration Process

Learn How to Use Albert
Albert is NYU’s online student database and registration system. (It’s named for Albert Gallatin, a founder of the University!) Students can use Albert to search for courses across NYU, register for classes, check their bursar’s bill, and view the status of their financial aid. If you are unfamiliar with Albert, please spend some time investigating its many functions.

What is “NYU Home” and how is it related to “Albert”? NYU Home is a web-based portal that provides entry to Albert and a range of other services. Through NYU Home, students also access their NYU email account.

What is a “NetID” and how is it related to “NYU Home”? All NYU students are provided with an NYU NetID (Network IDentification). Once it is activated (see below), you use your NetID in combination with a password that you set to access many services at NYU, most of which are located through NYU Home. Your NetID followed by @nyu.edu is your NYU email address. As soon as you activate your NetID, your NYU email is operable. It is imperative that you check your NYU email regularly, as it is the only way most NYU offices, including Gallatin, communicate with students. If you use another email provider, you can program email forwarding from your NYU email account.

Follow these instructions to activate your NetID, log on to NYU Home, and learn how to locate and navigate Albert:

1. **Activate your NYU NetID and create a password:** More than likely you have already activated your NetID, but if not, visit NYU’s Start Page: start.nyu.edu, enter your NetID, agree to the terms, update your email address and birth date, and set a password. If you plan to access your email via a mobile device or desktop email program, you will also need to set a Google Apps password. Be sure to write down your NetID and password(s) if you cannot memorize them. If you encounter any problems, contact Albert Support at (212) 998-4838 or albert@nyu.edu and provide the following information: full name (first and last), N number/University ID (if you know it), date of birth, and the permanent address, phone number, and personal email address NYU would have on file for you.

2. **Access NYU Home:** Once your NetID is activated, you can access NYU Home, which will allow you to sign on to Albert. To do this, go to home.nyu.edu and sign in using your NetID and password.

3. **Access Albert:** Once you have gotten familiar with your NYU Home settings, locate and select the “Academics” tab. Scroll up and/or down and select “Albert.” Note: If you spend more than ten minutes experimenting with NYU Home without logging in to Albert, you will have to log out of NYU Home, log back in, and go directly to Albert.

Gender Identity, Names, and Pronouns
In Albert, you can update your gender identity, preferred name, and pronouns if you wish. The updated information will appear on your professors’ class rosters and on most University records. To update your information, go to: www.nyu.edu/students/student-information-and-resources/registration-records-and-graduation/forms-policies-procedures/change-of-student-information.html.

Albert’s Registration Functions
Review the Albert Registration Guides to learn how to set up your enrollment shopping cart for registration: https://www.nyu.edu/students/student-information-and-resources/registration-records-and-graduation/albert-help/training/students/registration.html.

As you learn about Albert registration, pay close attention to:

- Planning and Validating Classes
- Adding Classes (including course search, permission numbers, and waitlisting)
- Dropping Classes
- Swapping Classes

Consider your Gallatin First-Year Program course options by reviewing the course descriptions (at gallatin.nyu.edu/academics/courses.html) and faculty bios (gallatin.nyu.edu/people/faculty.html) on the Gallatin website.

Registration
Advising: You will receive information from Gallatin’s Office of Academic Advising with instructions on how to select appropriate classes and be cleared to register for your first semester at Gallatin.

Registering for Classes: After making course selections and receiving your adviser’s approval, you will receive specific instructions to assist you in registering for classes on Albert.

Note: You will not be able to register for classes until you log on to Albert and enter your emergency contact and cell phone information. Also, make sure that you're cleared to register by checking the "Holds" section of your Student Center Home Page.
Financial Matters

Paying your Bill: Registering for classes generates your tuition bill, which is sent to you electronically as an eBill via your NYU email account. Be aware that the University does not mail paper bills. You will receive complete information about eBills from the University, and you can get more information online at [www.nyu.edu/students/student-information-and-resources/bills-payments-and-refunds/when-and-how-to-pay/accessing-your-your-students-bill.html](http://www.nyu.edu/students/student-information-and-resources/bills-payments-and-refunds/when-and-how-to-pay/accessing-your-students-bill.html). The University sets tuition payment deadlines each semester. For specific deadlines, see: [www.nyu.edu/students/student-information-and-resources/bills-payments-and-refunds/when-and-how-to-pay/billing-and-payment-due-dates/Undergraduate.html](http://www.nyu.edu/students/student-information-and-resources/bills-payments-and-refunds/when-and-how-to-pay/billing-and-payment-due-dates/Undergraduate.html). Students who do not meet the payment deadline will be dropped from their classes.

Financial Aid and Tuition Bills: If you have applied for financial aid, you will be notified of any award (i.e., scholarships, grants, student loans, federal work-study) by the University. Your financial aid will be applied to your tuition bill to reduce your outstanding balance. You can check your financial aid and account balance on Albert.

Tuition Insurance and Tuition Refunds: Because financing higher education is so costly, it will be helpful for you to be informed about tuition insurance and the University refund policy for dropping classes. Because there may be financial penalties for dropping courses after classes begin for the semester, the University recommends that you purchase tuition insurance. You can view the University’s refund schedule at [www.nyu.edu/bursar/refunds/schedule.html](http://www.nyu.edu/bursar/refunds/schedule.html). You will receive information about tuition insurance in the mail, but you can get more information online at [www.nyu.edu/bursar/refunds/insurance.refund.html](http://www.nyu.edu/bursar/refunds/insurance.refund.html).

Your Student Records

Once you have registered, you will be able to view your schedule of classes and billing account on Albert at any time. You will be able to see an unofficial version of your transcript with the grades and units you have earned, and also a Degree Progress Report that will inform you about which degree requirements you have fulfilled and which ones you must still complete before you can graduate. Both the unofficial transcript and the Degree Progress Report are available in your Student Center on Albert.

FERPA: If you are 18 years old or enrolled in classes at an institution of higher learning, the federal Family Educational Rights and Privacy Act (FERPA) stipulates that your academic records belong to you. This means that a university is not permitted to release information about your record to anyone, including your parent or guardian, without your explicit consent. NYU will therefore communicate information about your record (transcript, grades, tuition bill, housing information, etc.) only to you. Please be informed about this law and make sure to read all email sent from NYU offices to your NYU email account. It is your responsibility to pass information about your record (i.e., tuition bill) to your parents or other parties who may be managing or coordinating your business for you.

For more information about FERPA, see: [www.nyu.edu/students/student-information-and-resources/registration-records-and-graduation/forms-policies-procedures/FERPA.html](http://www.nyu.edu/students/student-information-and-resources/registration-records-and-graduation/forms-policies-procedures/FERPA.html).

Granting Guest Access to Your Academic Records:

If you would like someone to be able to view information from your academic record on Albert, you have the option to create and manage Guest Users for certain Albert records. To learn about the records available to Guest Users, and for information about how to set up an account for a Guest User, see [www.nyu.edu/students/student-information-and-resources/registration-records-and-graduation/albert-help/training/students/guest-users/setup-guest-users.html](http://www.nyu.edu/students/student-information-and-resources/registration-records-and-graduation/albert-help/training/students/guest-users/setup-guest-users.html).

Granting Guest Access to Your Financial Records:

If you would like someone to be able to view information from your financial/academic record on Albert, you have the option to create and manage Guest Users for certain Albert records. To learn about the records available to Guest Users, and for information about how to set up an account for a Guest User, see: [www.nyu.edu/bursar/esuite/](http://www.nyu.edu/bursar/esuite/).
Study Away
Many Gallatin students find that study away helps them articulate or enhance their concentrations. Study away options include:

• Semester- or year-long study at NYU campuses in Abu Dhabi, Accra, Berlin, Buenos Aires, Florence, London, Los Angeles, Madrid, Paris, Prague, Shanghai, Sydney, Tel Aviv, and Washington, DC
• Semester- or year-long exchange programs with partner universities around the world
• Intensive academic programs and travel courses in January and Summer terms

Gallatin students may study away for a semester or a year beginning in their sophomore year. Transfer students may do so beginning in their second full semester at Gallatin.

For information about any of the options listed above, go to: www.nyu.edu/admissions/study-abroad.html.

In addition, Gallatin runs several study away programs each year, and we occasionally permit students to enroll in programs not affiliated with NYU and then transfer back the units. For more information about these options, visit: gallatin.nyu.edu/academics/global.html.

Accelerated Bachelor’s-Master’s Tracks
Gallatin offers students the possibility of completing the bachelor’s degree and specific master’s degrees (as described below) in five years by taking graduate-level courses while enrolled in the undergraduate program. These accelerated programs are designed for academically strong students who have an equally strong commitment to public service and leadership.

• Gallatin–Wagner Dual-Degree Program: Gallatin and NYU’s Robert F. Wagner Graduate School of Public Service enable students to earn both a Bachelor of Arts (BA) in Individualized Study and a Master of Public Administration (MPA) in Public and Nonprofit Management or in Health Policy and Management. Students enter the program while enrolled as undergraduates in Gallatin and may complete a maximum of 28 of the 60 units required for the Wagner MPA while they are still undergraduates. For more information, see: gallatin.nyu.edu/academics/undergraduate/universitycourses/dual-degrees/b-a--m-p-a-.html.

• Gallatin–College of Global Public Health Dual-Degree Program: The Gallatin School of Individualized Study and the School of Global Public Health (GPH) offer a dual-degree program to enable students to earn both a Bachelor of Arts (BA) in Individualized Study and a Master of Public Health (MPH). The dual-degree option is available to students going into the following MPH concentrations: Biostatistics, Epidemiology, Global Health, Social and Behavioral Sciences, or Public Health Nutrition. Students enter the program while enrolled as undergraduates in Gallatin and may complete a maximum of 15 of the 46 units required for the MPH while they are still undergraduates. For more information, see: gallatin.nyu.edu/academics/undergraduate/universitycourses/dual-degrees/ba-mph-program-description.html.

• Gallatin–School of Global Public Health BA-MA in Bioethics: The Gallatin School of Individualized Study and the School of Global Public Health (GPH) offer an accelerated program to enable students to earn both a Bachelor of Arts (BA) in Individualized Study and a Master of Arts (MA) in Bioethics in less time than it would take to complete the programs separately, and at a reduced cost. Students enter the program while enrolled as undergraduates in Gallatin and must complete 6 units (two required Bioethics MA courses) of the 32 units required for the MA in addition to the 128 units required for the BA degree. After matriculation in the MA program, students complete the remaining 26 units required for the MA in Bioethics. Admission to the BA-MA in Bioethics program is open to Gallatin undergraduate students who have completed at least three semesters at NYU, who have at least two semesters remaining at Gallatin, and who have and maintain a GPA of 3.3 or higher. For more information, see: gallatin.nyu.edu/academics/undergraduate/universitycourses/dual-degrees/ba-ma-in-bioethics.html.

• Gallatin–School of Global Public Health BA-MS in Biostatistics: The Gallatin School of Individualized Study and the School of Global Public Health (GPH) offer a dual-degree program to enable students to earn both a Bachelor of Arts (BA) in Individualized Study and a Master of Science (MS) in Biostatistics in less time than it would take to complete the programs separately. The BA-MS program provides
the opportunity for students to supplement their undergraduate studies in almost every field of science, social science, and even humanities, with a Master’s of Science in Biostatistics. The MS in Biostatistics provides students with strong grounding in public health, as well as expertise in biostatistics and data analysis and statistical computing. Students admitted to the BA-MS dual-degree program will accelerate their progress to an MS degree in Biostatistics by earning 15 units of the 46 units required for the MS during their undergraduate program. For more information, see: gallatin.nyu.edu/academics/undergraduate/universitycourses/dual-degrees/ba-ms-biostatistics.html.

Declaration of a Minor
Gallatin students are permitted, but not required, to declare one academic minor. When fulfilled, the minor will appear on the student’s transcript. A list of possible minors may be found at www.nyu.edu/students/academic-services/undergraduate-adviseem/unique-academic-opportunities/cross-school-minors.html.

The typical minor consists of a minimum of 16 to 20 units. The exact number of units and minimum grade requirement are determined by the program in which the minor is offered. Please note that declaring a minor requires your adviser’s approval and that not all minors are open to Gallatin students. For more information about the general feasibility of declaring a minor, see: www.gallatin.nyu.edu/academics/undergraduate/universitycourses.html.

Gallatin Scholarly Communities
Gallatin offers many fellowships and extracurricular programs for high-achieving students who want to enhance their concentrations. Examples include:

- The Americas Scholars and the Dean’s Honor Society are scholars groups involving travel to which rising sophomores, juniors, and seniors with high GPAs are invited to apply.
- The Global Fellowship in Human Rights and the Global Fellowship in Urban Practice are competitive fellowships that provide students with up to $5,000 each so that they may intern or conduct research at organizations around the world.

For more information about such opportunities, contact gallatin.global@nyu.edu.

Gallatin Awards, Honors, and Fellowships
Gallatin’s many research awards and fellowships offer funding to students in pursuit of research and creative projects related to their concentrations and in exploration of a wide variety of disciplines, including the arts, sciences, and humanities. Gallatin students are empowered to explore their intellectual, creative, and career paths in a variety of ways—and on national and international stages.

By offering financial support in the form of grants and fellowships, Gallatin works to expand the number of research and enrichment opportunities available to students.

These awards, honors, and fellowships include:

- Africa House Bergman Summer Fellowship
- Dean’s Award for Graduating Seniors
- Dean’s Award for Summer Research
- The Gallatin China Summer Scholarship
- Gallatin Newington-Cropsey Foundation Fellowship
- Gallatin Student Resource Fund
- Gallatin Undergraduate Research Fund
- Horn Family Fund for Environmental Research
- Jewish Studies Grant
- Tory Burch Innovation Scholars

Selected recipients of various Gallatin awards and fellowships may be invited to participate in the Gallatin Summer Research Program. This program helps students develop critical skills necessary to pursue original research projects. Students in this program enroll in a zero-credit course over the summer and may go on to present their projects at the annual Gallatin Student Research Conference in the Fall semester.

To learn more about all of these opportunities, including award amounts, application procedures, and best practices, see: gallatin.nyu.edu/academics/awardsandhonors.html. For more information, please contact gallatin.researchawards@nyu.edu.
Senior Project
The Senior Project is an optional semester-long, 4 unit, intensive independent research and/or creative project that students work on under the guidance of a faculty mentor. Projects often, although not always, take on themes or questions with which students engage in their Colloquium or Rationale, and they attempt to make a new scholarly or artistic contribution to their fields. Examples of Senior Projects include a paper based on original research, a written assessment of a community-learning initiative, or an artistic project (such as design-based work, art exhibit, or theatrical production) accompanied by an analytic essay (comprising artistic background, aims, and technique).

National Awards and Scholarships
A number of prestigious national awards and scholarships, such as Fulbright, Marshall, Rhodes, Truman, Udall, and Gilman, recognize academic achievement and support undergraduate and graduate study, research, teaching, and study away. These awards are highly competitive and often require a faculty member’s recommendation, an interview process, and the University’s endorsement. For more information, please contact gallatin.researchawards@nyu.edu.
Getting Involved at Gallatin

Gallatin has a vibrant community beyond the classroom that enables students to engage in activities and with organizations that expand their academic, social, political, and cultural interests. Students may get involved in the Gallatin community in numerous ways, from working with the Urban Democracy Lab, Writing Program, or STAC (Science, Technology, Arts, and Creativity) to joining student clubs, an affinity group, and/or attending Gallatin events. Students should check the This Week at Gallatin email to learn about events and opportunities as well as visit the Gallatin events page, gallatin.nyu.edu/utilities/events.html.

Urban Democracy Lab

The Urban Democracy Lab promotes critical, creative, just, and sustainable forms of urbanism through engaged scholarship, collaborative undergraduate and graduate coursework, creative public programming, and active publication. To get involved, visit urbandemos.nyu.edu, email urbandemos@nyu.edu, or join the Gallatin student club Urban Democracy Lab Student Organizers.

Gallatin Writing Program

Students develop their academic writing skills in First-Year Writing and Research Seminars, explore a variety of genres in Advanced Writing Courses, and experience writing beyond the classroom through the Gallatin Writing Program’s diverse events, publications, and civic engagement projects, such as the Literacy Project and Great World Texts. Additionally, the Writing Center offers peer writing assistance from continuing students who are trained to help you at any stage of the writing process. To learn more, visit gallatin.nyu.edu/academics/undergraduate/writing.html.

STAC

Science Technology Arts + Creativity (STAC) showcases Gallatin’s interdisciplinary engagements at the intersections of science, technology, arts, and the humanities. STAC gives space, materials, and support to members of the Gallatin community—students, alumni, faculty, and staff—who are working at the intersections of making, doing, and thinking. STAC also endeavors to create inclusive communities and to offer academic support and curricular and co-curricular programming for students interested in all forms of science and technology. To learn more, visit wp.nyu.edu/gallatin-tinkering/.

Gallatin WetLab

The Gallatin WetLab is an experimental public-facing teaching and learning initiative across the environmental arts and sciences that permits students, artists, and scientific researchers to create, develop, and display projects that engage with environmental crises. The “wet” in WetLab signals the porous boundaries between disciplines and a commitment to collaboration with organizations that work with marine science and art toward engaged public programming and pedagogy. For more information, visit https://wp.nyu.edu/gallatinwetlab/.

Initiative for Critical Disaster Studies

The Initiative for Critical Disaster Studies at NYU Gallatin seeks to foster the emergent interdisciplinary field of critical disaster studies within the social sciences and humanities. It takes as its starting point that the very category of disaster is constructed, a political distinction that designates some suffering as normal and some as abnormal. At NYU and in New York City, we encourage the critical study of disaster through events, courses, and graduate studies. We host listings of calls for papers, events, and other resources for the benefit of critical disaster scholars everywhere. To learn more, visit https://wp.nyu.edu/disasters/.

Diversity Council

The Diversity Council is committed to building and supporting a culture of inclusion, diversity, belonging, equity, and accessibility (IDBEA). Its members, who consist of students, faculty, and administrators, work with key components of the School in order to identify how the community can improve its efforts in IDBEA issues. The Council holds meetings and programming regularly throughout the academic year. To inquire about getting involved, email diversitycouncil.gallatin@nyu.edu.

Affinity Groups

Affinity Groups are organized around interdisciplinary themes and are meant to be primarily social in nature, building communities within and beyond Gallatin by meeting regularly throughout the academic year to discuss issues, host speakers, and visit relevant organizations, museums, parks, and community spaces throughout New York City. Groups are open to all undergraduate Gallatin students and require a semester-long commitment. Each group is facilitated by a Gallatin graduate student and is managed by the Office of Community Engagement. For more information, email gallatin.affinitygroups@nyu.edu.
Community Engagement

The Gallatin Galleries
The Gallatin Galleries engage with contemporary social issues through a broad range of contemporary art, documents, and events. Exhibitions of work by students, faculty, and alumni are presented in the Galleries throughout the year. The Gallatin Galleries are located at 1 Washington Place, with the main gallery on the ground floor facing Washington Place. Other gallery spaces are located on the 4th, 5th and 6th floors of 1 Washington Place. Learn more at wp.nyu.edu/gallatingalleries.

Gallatin Student Clubs
Gallatin’s student-run clubs and organizations speak to the diversity of student interests at the school, and Gallatin welcomes and supports student interests and celebrates the many contributions that student events and activities add to the community of the School. Students wanting to find out more about clubs, organizations, and leadership opportunities at Gallatin should contact the Office of Student Life at gallatin.studentlife@nyu.edu or visit gallatin.nyu.edu/studentlife/studentgovernment.html.

Gallatin Student Publications
The Gallatin Review
An annual journal of student poetry, fiction, creative nonfiction, and visual art, The Gallatin Review is edited by students and published in the spring to coincide with readings at which the art is displayed.

The Literacy Review
An annual journal of writing from adult literacy programs throughout New York City, The Literacy Review is edited by students. Each year, the publication of the journal culminates in a celebration featuring readings by the newly published writers.

Confluence
An online platform for student writing, art, and research, Confluence publishes teacher-nominated student work generated in Gallatin courses, as well as independent works commissioned by the student editors.

Gallatin Events
The Gallatin calendar is updated regularly with events during the academic year. Check your email on Sunday for This Week at Gallatin, our weekly event listing, and visit the Gallatin Events page, gallatin.nyu.edu/utilities/events.html. Annual offerings include The Gallatin Arts Festival (GAF), the Gallatin Fashion Show, Black History Month, The Big Walk, Earth Day celebrations, a fall theatrical production, the Distinguished Faculty Lecture Series, the Albert Gallatin Lecture Series, events from the Urban Democracy Lab, Albert Gallatin’s Birthday Party, student fellowship and research symposia, film screenings, coffeehouses, and more.

The Gallatin Fashion Show
One of the year’s most popular events, the Gallatin Fashion Show is an annual themed showcase of collections designed and created by current students, alumni, and faculty. The show takes place in early spring, with a look book shot during the winter break.

The Gallatin Arts Festival
Known around the school as the GAF, the Arts Festival is a weeklong celebration of interdisciplinary art at Gallatin that turns 1 Washington Place into a gallery/performance space and fosters community and discussion.

Communications
Gallatin’s Office of Communications tells Gallatin’s story across multiple channels to its many audiences, supporting the School’s mission and providing strategic direction for its communications. The office publishes Gallatin Today, an annual magazine with features on alumni, faculty, and students; Criss Cross: The NYU Gallatin Podcast, a forum for conversations on collaborations at NYU Gallatin; Parents Update, a biannual newsletter for parents of current Gallatin students; and the latest news about Gallatin.

The office administers Gallatin’s social media channels: Facebook, Instagram, LinkedIn, Twitter, and YouTube. In partnership with the NYU Press Office, the office facilitates media relations for the college, working with regional and national media to share news and stories.
If You Struggle . . .
Sometimes students encounter difficulties. Such issues can include, but are not limited to, situations of learning differences, family turmoil, relationship problems, financial insecurity, substance abuse, and psychological distress. NYU and Gallatin have many resources to help. Most advisers and professors are sympathetic to such situations. When possible, it is a good idea to let your advisers and professors know when you are experiencing a difficulty that may have a negative impact on your academic performance. Additionally, Gallatin’s Office of Student Affairs can connect you to resources that can provide you support. Contact the office at (212) 998-7380 or gallatin.studentaffairs@nyu.edu.

Student Health Center (SHC): NYU’s Health Center offers medical, counseling, health promotion, and pharmacy services and provides accessibility accommodations to students with disabilities. All matriculated students in a degree-granting program have access to the SHC, regardless of insurance. [https://www.nyu.edu/students/health-and-wellness.html](https://www.nyu.edu/students/health-and-wellness.html)

NYU’s Moses Center for Student Accessibility can provide reasonable accommodations for students with verified, qualified disabilities. For more information, see: [www.nyu.edu/students/communities-and-groups/student-accessibility.html](www.nyu.edu/students/communities-and-groups/student-accessibility.html). Gallatin’s Office of Student Affairs also manages issues to do with academic progress and integrity.

Academic Review: At the end of each Fall and Spring semester, Gallatin’s Office of Student Affairs reviews student records to ensure that they are in Academic Good Standing and are making Satisfactory Academic Progress. Students whose records indicate they are struggling may be placed on Official Warning or on Academic Probation. This is not to punish the student but to ensure that the student’s progress is closely monitored and that the student is guided to various support systems that exist. For more information, see: [gallatin.nyu.edu/academics/policies/policies1/academic-standing-undergraduate.html](gallatin.nyu.edu/academics/policies/policies1/academic-standing-undergraduate.html).

Academic Integrity: As a Gallatin student, you belong to an interdisciplinary community of scholars and artists who value honest and open intellectual inquiry. This relationship depends on mutual respect, responsibility, and integrity. Failure to uphold these values will be subject to severe sanction, which may include dismissal from the University. Examples of behaviors that compromise academic integrity include plagiarism, illicit collaboration, doubling or recycling coursework, and cheating. Please review Gallatin’s academic integrity policy at: gallatin.nyu.edu/academics/policies/policies1/academic-integrity.html. Additionally, please understand that you are responsible for maintaining high standards of academic integrity in all courses in which you enroll, whether they are offered by Gallatin or another school of NYU. Most professors include some statement about academic integrity in their course syllabi. Regardless, the professor determines what constitutes appropriate academic conduct. If you are unsure about whether or not you are meeting the expected standards of academic conduct in a course, consult with your professor immediately.
Gallatin Full-Time and Associate Faculty

Peder Anker
Professor
pja7@nyu.edu
history of science, environmental affairs, ecology, and sustainable design

Sinan Antoon
Associate Professor
sinan.antoon@nyu.edu
pre-modern Arabo-Islamic culture; classical and modern Arabic poetry; the Arabic novel; gender and sexuality; postcolonial theory; contemporary Arab culture and politics

Gianpaolo Baiocchi
Professor
gb97@nyu.edu
politics and culture; critical social theory; urban studies; Latin America

Elaine Ayers
Visiting Assistant Professor
elaine.ayers@nyu.edu
history of science; colonialism; collecting; public history; gender and sexuality; natural history; botany; museum studies; digital humanities; scientific illustration

## Academic Advising, 1 Washington Place, 7th floor, (212) 998-7320, advising.gallatin@nyu.edu
The Office of Academic Advising coordinates all aspects of advising at Gallatin. The Office assigns entering students to primary advisers and hosts workshops for students and primary advisers on academic policies and opportunities. Class advisers support students and primary advisers through walk-in hours, liaising with colleagues in other NYU schools, and "specialty advising" in areas like national scholarships.

Gallatin Offices and Resources

Community Engagement, 1 Washington Place, 5th Floor, studentlife.gallatin@nyu.edu
The Office of Community Engagement enhances a sense of community and inclusion at Gallatin. This entails fostering student-to-student and student-to-faculty interaction through Student Life club activities, affinity groups, student government, new initiatives and programs, and School-wide events and series, such as Orientation, Convocation, Black History Month, Diversity Council, the Gallatin Arts Festival, Graduation, and more.

Global Programs, 411 Lafayette Street, 3rd Floor, (212) 998-7133, gallatin.global@nyu.edu
The Office of Global Programs coordinates Gallatin’s international endeavors. These include helping students plan semesters away at one of NYU’s global campuses; administering and helping students apply to Gallatin’s Summer and January intersession travel courses; planning and coordinating travel for Gallatin’s scholars groups; and serving as a resource for all Gallatin students studying away, regardless of circumstance.

Writing Center, 1 Washington Place, Room 423
For support at any stage of the writing process, from brainstorming about a subject, to clarifying a thesis, to organizing the structure of an essay, book an appointment at the Writing Center, where accomplished upper-level Gallatin students work as Peer Writing Assistants. Mindful of your individual goals, the Peer Writing Assistants act as friendly, constructive second readers of any written assignment. To schedule an appointment, please visit their website: gallatin.nyu.edu/academics/undergraduate/writing/writingcenterappointments.html.

Safe NYU is New York University’s free mobile campus safety app. With this app you can obtain on- and off-campus transportation information, send your location to a friend in real time simultaneously call NYU Public Safety and send your location, and more. Students should visit the website for more information and to download the app.
### Resources for Parents

**Important Events/Activities During the First Year.**
Below is a general time frame for key events in the coming year. For specific dates, please see NYU’s academic calendar: [www.nyu.edu/registrar/calendars/university-academic-calendar.html](http://www.nyu.edu/registrar/calendars/university-academic-calendar.html).

**This is NYU’s comprehensive website for parents, designed to address issues of concern to parents and to answer a wide variety of questions parents have (e.g., Where is the academic calendar located? How can I access my student’s billing information? When does my student register for classes?). Parents can get answers to specific questions by sending an email or calling the NYU Parent Helpline.**

**Family Educational Rights and Privacy Act (FERPA)**
The Family Educational Rights and Privacy Act of 1974 (FERPA) was enacted to protect the privacy of students’ education records, establish the rights of students to inspect and review their education records, and provide students with an opportunity to allow inaccurate or misleading information in their education records to be corrected. The result of this act means that parents/guardians must have a student’s permission to access their student’s record. Parents/guardians can learn more about this by reviewing FERPA information on the Gallatin website at [www.gallatin.nyu.edu/about/bulletin/undergradpolicies/FERPA.html](http://www.gallatin.nyu.edu/about/bulletin/undergradpolicies/FERPA.html).
